Diwali celebration

This Diwali, Ashokites implemented eco-friendly ways of celebrating positivity and warmth. The learners enthusiastically made torans, painted diyas, and even sold them in the school itself.

Trips together

As a part of tradition, Ashokites were taken to a fun trip post Diwali vacation. This time the destination was IMAGICA!

NIGHT CAMP Diwali celebrations in a new way

Prior to Diwali vacations, Ashokites enjoyed a night stay in school with their friends and teachers which included a free disco party, a jam session, a long night of conversations, sleep over, meals together ending with morning zumba...

Children's day

Children's Day is always a joy to celebrate. It reminds us of the child within us and that the world cannot be a better place without children! Here at AGA, learners had fun in a movie themed costume party, while the ever enthusiastic team of teachers celebrated the children within them on this fun occasion.

TAKING EXPERIENCE TO THE NEXT LEVEL

A Children's Day gift to students by our beloved Chairman Shri Ashokji Katariya

Sports achievements

"The most important thing in the Olympic Games is not winning but taking part; the essential thing in life is not conquering but fighting well." "...the important thing in life is not to triumph but to compete...not victory but combat...not to have vanquished but to have fought well...not winning but taking part..."

> -----Pierre de Coubertin Founder of the Olympic Games

During the DSO competitions, Ashokites enthusiastically participated in various competitions and performed their best.

- **Monali Bare**-Silver medal in gymnastics (selected for divisional level)
- Neil potdar third place in modern pentathalon
- The cricket team (boys under 17 & under 14) stood third.

Teacher's view Rotary

Greetings to all,

Being a Rotary member, I feel it's a platform given to me to portray my ideas about the upliftment of the society. I get to learn a lot at Rotary and I am grateful for the opportunity and experience given to me by Ashoka Global Academy. My first and strongest impression of Rotary Club is that everyone in the committee seems sincere about wanting to do a good job, respectful of others, and willing to work together. Rotary depends a lot on whether you are in a member-facing or internal-facing role. Member- facing roles tend to have a more conservative work culture, less open to change, as they have to meet member expectations for how things work or function. Internal-facing roles can experiment more and innovate.

As a Rotarian, we are expected to take part in the growth and development of our own profession or vocation; to serve on committees and to teach youth about our job or vocation. Rotary helps to make you better at your chosen profession. Each activity which we plan and put it to action has its own beauty and importance. These activities have helped me to develop selfconfidence, self-actualisation and satisfaction. It's my privilege being a part in bringing a change in conservative society.

I believe in the motto "Service above Self" and that goes hand in hand with Rotary club.

-Mrs .Misba .J.Shaikh.

Homework

The main purpose of giving homework to children is to reinforce what they have learned at school. This will help them in learning the study material better.

Homework teaches students responsibility. Homework gives students an opportunity to practice and refine their skills. We give homework because our parents demand it. Our community equates homework with rigor.

Benefits of homework:

- Homework teaches students about time management. Homework teaches students how to set priorities.
- Homework helps teachers determine how well the lessons are being understood by their students.
- Homework teaches students how to problem solve.
- Homework gives student another opportunity to review class material.
- Homework gives parents a chance to see what is being learned in school.

Homework teaches students how to take responsibility for their part in the educational process.

- Homework teaches students that they may have to do things even if they don't want to.
- Homework teaches students to work independently.
- Homework teaches students the importance of planning, staying organized, and taking action.

But excessive homework is counterproductive and not helpful to the students. In fact spending too much time on homework can take away the student's social life, family time and game time. When a student realises that he is unable to get any spare time for recreational activities, he loses interest in studies. A Father or A Mother? This poem is dedicated to all the single parents for being who they are and thus creating the children they did.

> I have a life , you made me have one.

I lived in your shadows, you took great efforts.

> I had a shell, you made it glow.

I wanted to hide, you made me flow.

I had a dream, you made it a goal.

I learnt your difficulty, you sacrificed greatly.

- Durwa Duse
