MISSION STATEMENT

We are committed and determined to redefine the cause of excellence in education and implement it through accelerated need based practical oriented process with holistic approach; to empower learner for self-exploration, so as to become a responsible global citizen with deep rooted ethos of Indian culture and tradition.”

We extend our heartfelt gratitude to you-our valued stakeholders-for your unwavering support and for placing your trust in the Ashoka Group of Schools.

The world has recently weathered an unprecedented storm, and like many other sectors, education too was deeply impacted. While the challenges were undeniable, what emerged from this period was a remarkable transformation-a gentle push from time itself, nudging us into a new era .

An era of technology.

An era of fresh beginnings.

An era of boundless possibilities and transformative learning.

No one could have foreseen the trials of the past two years. Yet, I am incredibly proud and deeply thankful for what we've accomplished during this extraordinary time. Despite the obstacles, we remained steadfast in our mission-ensuring that the process of education remained uninterrupted and effective. We not only adapted but continued to excel.

This journey strengthens my belief that we will continue to evolve, grow, and emerge stronger. Together, we are shaping a resilient and dynamic foundation-one that will continue to serve our students, our communities, and our nation with pride and purpose.

With sincere appreciation,

Warm Regards,

Mr. Ashok Katariya

Chairman

Ashoka Group of Schools

We have learned many lessons during the pandemic, but perhaps the most important is this: a renewed belief in our ability to adapt, reform, and revive. We've realized that academic performance in the classroom is only one piece of the puzzle. Skill development has now taken center stage.

Today's education is no longer just about absorbing content—it's about collaboration, confidence, critical thinking, innovation, self-reflection, and engagement. It's about shaping students into responsible global citizens.

As we reopen our campuses, we are committed to nurturing experiences that build adaptability, open-mindedness, and resilience—developing radical thinkers with a growth mindset who can turn challenges into opportunities.

Through a range of thoughtfully designed activities and experiences, we are redefining education beyond the limitations of content and marks. Our curriculum is evolving into a holistic framework that emphasizes overall personality development, equipping our students to thrive in the 21st century.

But this transformation cannot be achieved alone. It calls for collective effort—from parents, teachers, institutions, and society at large. Together, we can prepare our children to navigate the VUCA world (Volatile, Uncertain, Complex, and Ambiguous) with confidence, courage, and clarity.

Let us join hands to turn our young Ashokites into true Globalites.

Warm Regards,

Ms. Astha Katariya

Our students are taught the values of honesty, integrity, empathy, and respect. We encourage them to be responsible, compassionate, and socially aware individuals who contribute positively to society.

We recognize the importance of a strong partnership between parents and teachers. Open communication and collaboration between the school and parents are vital for a student's success. We encourage parents to actively engage in their child's education and support their growth both academically and personally.

As a school, we are not isolated from the world around us. We actively engage with our local community through various initiatives. This instills in our students a sense of responsibility and the importance of giving back to society.

Before their birth, children are connected to family, community, culture and places. Their most early development takes place through all these relationships and places. Then comes a time when children are exposed to a larger community- their school, where they develop interest construct and form their own identities and understand the world around them. As it is very rightly said that - It takes someone special to be an Educator.

A person who cares for others and aims to help students grow to their fullest potential. Teaching, according to me is "Not short of Heaven on Earth." Just imagine walking down an empty corridor, and you suddenly hear the sound of children's voices singing sweetly or even talking to each other, isn't this such a heavenly feeling? This feeling always inspires me to come to School each day and fulfill all my duties as a Headmistress of the Pre Primary Section at this esteemed institution of Ashoka Global Pre School.

My self-driven attitude and the motivation of my entire teaching staff, the parents and all my loving children enable me to strive for better, each day.

I believe I was destined to be here.

Best Regards,

Ms. Aparna Mathkari
